SUMMARY

Senior Fullstack Developer (Frontend-Heavy) with **4.5+ years** of experience in **React, TypeScript, and .NET**. Delivered **5+ enterprise-grade applications** used by 1000+ companies across Finance, CRM, and Operations. Proven expertise in frontend architecture, performance optimization, multi-tenant systems, and **Agile** delivery. Seeking a senior engineering role to drive product quality and technical excellence.

EXPERIENCE

Dscission Automation

May 2022 – Present

Senior Software Engineer – React, .NET | Pune, India

- **Led frontend architecture** for **5+ enterprise applications** used by **1000+ companies** (Power BI analytics, Finance & CRM, Production Line Management); primary **technical decision-maker** for UI design, component strategy, and **Agile** sprint planning.
- Built **Finance & CRM systems** with dynamic billing, configurable pricing, and automated invoice workflows using **React, TypeScript, and REST APIs** — reducing manual effort by **40%**; owned **.NET Web API** layer with **RBAC** and **JWT** auth.
- Migrated legacy monolithic UIs to **modular React architecture** — achieving **25% smaller bundles** and **35% faster load times** via code splitting, lazy loading, and tree shaking; raised **Lighthouse scores from 60 to 85+**; improved **accessibility (WCAG)** across all products.
- Designed and shipped a **reusable TypeScript component library** (forms, tables, modals, data grids) using **React Hooks** and **Context API** with **Jest** and **React Testing Library** unit tests — adopted in **80%+ of projects**, accelerating delivery by **30%** and cutting UI bug rates by **40%**.
- **Reduced infrastructure costs by 30%** via open-source tooling, **Webpack/Vite** build optimization, and **Docker** on **Azure**; set up **CI/CD pipelines** for zero-downtime releases; conducted **code reviews** and mentored juniors on **Git** workflows.

PROJECTS

Enterprise Billing & Finance Engine | *React, TypeScript, .NET Web APIs, PostgreSQL, Azure, Docker*

- Sole architect of a **multi-tenant billing SaaS** — built a dynamic **React** frontend with configurable pricing, real-time tax/discount logic, multi-step wizards, and custom invoice preview using **React Hooks, Zustand**, and a typed **TypeScript** component library.
- Designed **.NET RESTful APIs** with **RBAC, JWT** auth, and tenant-scoped data isolation; built **PDF generation** pipelines for invoices/reports; deployed on **Azure** via **Docker** with **CI/CD** and **responsive, accessible UI** (WCAG compliant).
- Applied **React** performance patterns (lazy loading, code splitting, memoization, virtualized lists) and optimized **PostgreSQL** queries, improving throughput by **25%** and cutting billing effort by **40%**.

Real-Time Collaboration Platform | *React, TypeScript, Zustand, .NET, SignalR, PostgreSQL*

- Built a **production-grade real-time SPA** (Trello-style) with drag-and-drop lanes, animated transitions, and live **multi-user presence** — optimized **React** re-renders for zero UI flicker under concurrent updates.
- Architected frontend state with **Zustand** and **optimistic UI updates**; implemented **WebSocket sync via SignalR** with auto-reconnect, structured error boundaries, and graceful degradation for production reliability.
- Designed normalized **PostgreSQL** schema with indexed queries and optimistic locking; built **role-based permissions** and activity logging via scalable **REST APIs**.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C#, SQL

Frontend: React, React Hooks, Context API, Zustand, Redux, React Router, Material-UI, Tailwind CSS, SCSS, Storybook, Vite, Webpack, Responsive Design, Accessibility (WCAG)

Testing: Jest, React Testing Library, Unit Testing, Integration Testing

Backend & APIs: .NET 8 Web API, Node.js, RESTful APIs, SignalR (WebSockets), JWT Authentication

Databases: PostgreSQL, MySQL

Cloud & DevOps: Azure (App Service, Storage), Docker, CI/CD Pipelines, Git, Postman

Concepts: Multi-Tenant Architecture, RBAC, Web Performance Optimization, Agile/Scrum, Code Review & Mentoring

EDUCATION

D Y Patil College of Engineering

Bachelor of Engineering in Information Technology – SGPA: 9.3

Pune, India

2018 – 2022
